**Mobile Productivity Page of Sonoff Consulting Services, Inc.'s Productivity and Knowledge Transfer Mobile Web Site**

The three major headings provided on this Mobile Web page are listed below:

- [What Scsi does best -- Productivity and Knowledge Transfer](#)
- [Nine Major Categories of Productivity](#)
- [Additional Categories of Productivity](#)

NOTE: Relevant hyperlinks are included within the associated paragraphs to make your browsing session productive and all the more enjoyable.

**What Scsi does best -- Productivity and Knowledge Transfer**

Scsi's forte is [productivity and knowledge transfer](#). You will see that manifested throughout this Mobile Web site, although much of what you'll notice as content on this Mobile Web site does concentrate on discussions of [Web site validation and testing](#), achieving [100% accessibility](#), and so on. Why was that done?

**Proof of Productivity Expertise -- By Example**

Here is the answer. The underlying challenges behind those topics were tackled and solved by Scsi's President, [Raymond Sonoff](#), who independently evolved [Scsi's "Perfect 10" Mobile Web Site Standard](#) -- a [set of ten seamlessly integrated Mobile Web Best Practices](#) that every truly "World Class Level" Mobile Web Site should have.

To see the overall picture of what is stated above, select the [image](#) immediately below -- if present - - to view or download a full-page Adobe PDF diagram that provides hyperlinks to each of Scsi's "Perfect 10" Mobile Web Site Best Practices for your convenience.

**Examples of Scsi's Mobile Web Best Practices**

Here are just three specific Best Practices that are easily demonstrable for each and every Web page within the sonoffconsulting.mobi domain:

- Fast loading (see Scsi's Best Practice [#1](#).)
- Viewable with any browser (text- or web-based), operating system, screen resolution, or combinations thereof (see Scsi's Best Practice [#2](#).)
- When printed, the contents will always be intelligently word-wrapped -- regardless of printer or page layout settings that are in effect (see Scsi's Best Practice [#8](#).)

## **How Scsi's set of Best Practices led to Scsi's "Perfect 10" Mobile Web Site Standard**

Looked at in this light, you'll soon realize and more fully appreciate the fact that all of Scsi's Mobile Web Best Practices for Mobile Web site pages began as a set of well-defined and highly specific productivity-driven objectives. Now that these objectives have come to fruition, they are collectively referred to as Scsi's ["Perfect 10" Mobile Web Site Standard](#) which unceasingly illustrates that "We are productivity driven."

### **SmartDraw**

Scsi makes extensive use of [SmartDraw's business graphics software](#) (the latest release is called SmartDraw Version 2009) for increasing one's graphics-based productivity.

This decision was based on numerous outstanding features, a few of which are listed below:

- Numerous pre-populated templates
- Diverse and extensive (more than 63,000) graphics -- libraries of symbols, templates, and more
- Free help, free support, unlimited downloads, and more
- Unlimited drawing area with linking and layering included
- Integration with other programs, including Microsoft Office and Corel's WordPerfect Office

### **Microsoft Office Visio**

Visio evolved over several generations and [Microsoft Office Visio](#) is now a Microsoft-owned graphics tool that is ubiquitous in the PC industry.

Scsi can vouch for this wonderful graphics tool, having made use of it on a regular basis beginning in 1995 and up to the present day. Microsoft Office Visio is a wonderful software product that pays for itself many times over. Try it. You will be glad you did.

NOTE: Even if you do not own or plan to purchase this product, you should also be aware that there is a Microsoft Visio Viewer -- which you can download for free from the download section of the microsoft.com Web site. This view-only tool, according to Microsoft's write-up, "allows anyone to view Visio drawings and diagrams (if created with Visio 5, 2000, 2002, or 2003) inside their Microsoft Internet Explorer version 5.0 or later Web browser."

## **PC-based Hardware**

A few examples of productivity-increasing devices that everyone should consider using include the following:

### **Getting Organized and Time Management References**

It's always a good idea to take some time to prepare yourself for whatever lies ahead, and we usually give particular thought at such times to the matter of getting organized coupled with deciding how we should best make use of our available time for any given task, activity, or project.

Oftentimes, one of the best ways to approach overall preparedness for any category of task is through learning from what others have done before, particularly through reading of their published works. Here is a sampling of [Recommended Reading](#), which also includes some Web site hyperlinks that you might wish to consider visiting.
