Additional Information

Keep-It-Simple-Sonoff Point #5:

This policy is valid until 6 May, 2009 at 12:00:00 Eastern Time -- and for the foreseeable future beyond that date.

Data Collection

Platform for Privacy Preferences (P3P) policies declare the data they collect in groups (also referred to as "statements").

Keep-It-Simple-Sonoff Point #6:

Because this Mobile Web policy contains no data groups, there are no data practices that exist or that need to be explained.

Use of Cookies

Cookies are a technology which can be used to provide you with tailored information from a Mobile Web site. A cookie is an element of data that a Web site can send to your browser, which may then store it on your system. You can set your browser to notify you when you receive a cookie, giving you the chance to decide whether to accept it.

Keep-It-Simple-Sonoff Point #7:

NOTE: We do not make use of HTTP cookies.

Mobile Web Compact Policy Summary

P3P compact policies are a form of a P3P policy which summarizes what the policy says about cookies.

A policy mentions use of cookies if the data element "HTTP Cookies" is in any group in the policy. This data element is found under "Dynamic data".

Keep-It-Simple-Sonoff Point #8:

Because this Mobile Web policy does not mention any use of cookies, there is no compact policy form of this Mobile Web policy. As a consequence, compact policy evaluation need never be of concern for this very reason.

Mobile Web Compact Policy Evaluation

Typically, Microsoft Internet Explorer (MSIE) will evaluate a policy's compact policy whenever it is used with a cookie. The actions MSIE will take depend on what privacy level the user has selected in their browser (Low, Medium, Medium High, or High; the default is Medium. In addition, IE will examine whether the cookie's policy is considered satisfactory or unsatisfactory, whether the cookie is a session cookie or a persistent cookie, and whether the cookie is used in a first-party or third-party context.

Microsoft Internet Explorer will accept cookies accompanied by this Mobile Web policy under the High, Medium High, Medium, Low, and Accept All Cookies settings.

However, this entire matter is moot -- because no cookies are used anywhere throughout the sonoffconsulting.mobi domain. So, there is never any need for a compact policy evaluation to be performed.

Keep-It-Simple-Sonoff Point #9:

NOTE: Because (as stated already above) HTTP cookies are never used, the Mobile Web compact policy evaluation is never applicable. As a consequence, this Mobile Web compact policy should be considered satisfactory according to the rules defined by Microsoft Internet Explorer.
